OUR VISION & MISSION

Vision

Farm-to-Face Skincare Rooted in the Wellness Paradigm
We create powerful, results-driven skincare grounded in a true wellness philosophy — using only ingredients we cultivate ourselves within our cooperative in Sicily.
From seed to serum, we control every step of the process. Our botanicals are grown in nutrient-rich Sicilian soil, harvested at peak potency, and transformed into high-performance formulations that honor both skin health and environmental balance.
This is more than skincare — it's a regenerative ecosystem.

Mission

- Wellness First: Skin health is whole-body health. We formulate with the belief that balance, purity, and vitality begin in nature.
- From Farm to Face: 100% traceable ingredients grown by our cooperative farmers in Sicily.
- Full Transparency: We oversee cultivation, harvesting, extraction, and formulation — ensuring uncompromised quality.
- Seasonal Potency: We respect natural growing cycles to preserve maximum bioactivity.
- Sustainable & Ethical: Regenerative farming practices that protect soil, biodiversity, and local communities.

“We collaborate with Nature”

Plasma Elements
Two Forces of Nature. One Wellness Philosophy.
Plasma Elements is built on the idea that nature contains its own regenerative intelligence — what we call biological plasma: living, active, concentrated vitality.

We express this power through *two distinct natural cosmetic lines,* each rooted in extraordinary bioactive ingredients cultivated within our Sicilian cooperative.

Line I — Snail Plasma (PLASMA EARTH)
Regenerative. Restorative. Transformative.
Our Snail Plasma line is derived from ethically collected, high-purity snail mucin. Rich in natural growth factors, peptides, hyaluronic acid, and antioxidants, it supports visible skin renewal and deep hydration.
This line is designed to:

- Encourage skin regeneration
- Improve elasticity and firmness
- Refine texture and tone
- Strengthen the skin barrier

It is nature’s repair system — elevated.

Line II — Honey Plasma (PLASMA AIR) available next season 2027
Nourishing. Protective. Illuminating.
Our Honey Plasma line harnesses the concentrated vitality of bee honey and hive-derived actives. Abundant in enzymes, amino acids, vitamins, and natural humectants, it deeply nourishes and protects the skin.
This line is created to:

- Deliver intense hydration
- Soothe and rebalance
- Support microbiome health
- Restore natural radiance

It is nature’s nourishment — amplified.

PlasmaSnail face serum is formulated with 90% snail secretion filtrate, a naturally derived ingredient rich in components such as allantoin, collagen, elastin, glycolic acid, mucopolysaccharides, proteins, and vitaminsThis composition helps enhance the appearance of the skin, leaving it visibly fresher and more even.
The high concentration of snail secretion filtrate, in synergy with Goji berry and Polygonum extracts, helps preserve an even-looking complexion and reduce the visibility of skin imperfections, leaving the skin visibly smoother, more relaxed, and silky. Hyaluronic acid with dual molecular weight and aloe vera provide a pleasant sensation of hydration and help enhance the skin's natural radiance. Thanks to its lightweight texture, it absorbs quickly and is non-greasy.
